Environmental monitoring services including biological, paleontological and archeological will not be included in the construction management and inspection services Agreement but will be contracted for separately by the city. The city may retain the project bridging document Consultant team during the design development and construction processes for basis of design conformance review.

The construction management and inspection services agreement will be for a period of three (3) years term with an option to renew or extend for an additional two (2) one six (6) month term or any parts thereof. The expected award date of this agreement will be in November 2018.
