

2020 CMAA Foundation Scholarship
Application Guidelines

Background: Providing financial assistance through scholarships to students pursuing post-secondary education in construction management was one of the original purposes for establishing the CMAA Foundation in 1995. Scholarships represent a tangible demonstration of the association's commitment to the future.

Under the scope of work approved in 2018, the Foundation has established a new scholarship program to aid students pursuing postsecondary education that is intended to lead to a construction management career.

Criteria for awarding scholarships are set by the Foundation Board of Directors, who will also review applications and make the selections; the program is managed by the Foundation's staff.

General Conditions:

The Foundation will award at least one, and no more than four, scholarships annually.

Any student pursuing a post-secondary education that is intended to lead to a career in construction management is eligible to apply.

Students must be enrolled at institutions, based in the U.S., that are accredited by a U.S. regional accrediting agency.

Scholarships are awarded annually and recipients may reapply for one additional year.

All recipients will be introduced to local CMAA leaders. They will be invited to participate in local CMAA chapter events. Local CMAA leaders and volunteers will be encouraged to engage Foundation scholarship recipients in local events and programs.

Any recipient who chooses to pursue the Construction Manager-in-Training® credential within two years of receiving a Foundation scholarship will have his/her fees paid for by the CMAA Foundation in addition to receiving a scholarship.

Beginning in 2025, the CMAA Foundation will invite all scholarship recipients to attend an alumni event at the CMAA spring education conference.
