## Get Started Today

Take the first step on your pathway to success and explore the certification that aligns with your career stage.

## Construction Manager-in-Training (CMIT®)

### Building Tomorrow's Leaders

The CMIT stackable credentials program is ideal for students, recent graduates, and early-career professionals. It demonstrates a commitment to the construction management profession and provides foundational knowledge that sets the stage for future success. The CMIT designation:

- ✓ Shows your dedication to learning and growth.
- ✓ Helps you build a network of industry professionals.
- ✓ Equips you with key construction management principles.

Free to active duty military

## Certified Associate Construction Manager® (CACM)

### A Trusted Professional

The CACM certification takes the next step to recognize emerging construction professionals, validating their growing expertise and dedication to program and project excellence. The CACM is perfect for professionals who have progressed beyond the CMIT level and are ready to take on greater responsibilities, bridging the gap between hands-on experience and leading projects or programs with confidence.

- ✓ Validates your growing expertise in managing construction projects.
- ✓ Enhances your resume and career opportunities.
- ✓ Positions you as a trusted professional in the industry.

## Certified Construction Manager® (CCM®)

### The Gold Standard

As the leading certification in construction management, the CCM distinguishes top professionals who demonstrate extensive experience, skill, and a commitment to ethical practices. Holding the CCM credential:

- ✓ Offers an in to job opportunities that require or prefer candidates with the CCM.
- ✓ Opens doors to leadership roles and increases earning potential, up to about 10% more.
- ✓ Establishes you as an expert in construction management.
- ✓ Provides recognition from peers, clients, and industry leaders.
