To Provide

CONSTRUCTION MANAGEMENT SERVICES
FOR THE ECHOWATER PROJECT
PROCUREMENT 2

April 20, 2015
I. PREAMBLE

The Sacramento Regional County Sanitation District (Regional San) is seeking proposals for Construction Management Services for a portion of the EchoWater Project (Program) at the Sacramento Regional Wastewater Treatment Plant (SRWTP). This Request for Proposal (RFP) includes the information needed for proposal preparation and includes various attachments associated with proposal preparation and contractual requirements, including a District sample Agreement. This RFP and all attachments are also posted on Regional San’s website (http://www.regionalsan.com/business-opportunities). One (1) Consultant will be selected from the submitted proposals to provide Construction Management (CM) services for the projects in this procurement group. The Consultant will be selected based on their ability to provide support on both projects and their ability to supplement project staff on other projects where and as needed.

The Consultant agreement will include a cost ceiling for the combined projects, but will be implemented on a time-and-materials basis.

II. SUBMITTAL INSTRUCTIONS

Please submit eight (8) hard copies and one PDF on CD as follows:

Due Date: May 29, 2015 by 3:00 p.m.
Deliver to: EchoWater Project
SRWTP Administration Building
8521 Laguna Station Road
Elk Grove, CA 95758
Attn: Vick Kyotani, Deputy Director of Operations

III. PROGRAM BACKGROUND

The SRWTP provides wastewater treatment to the Sacramento area and surrounding cities, serving approximately 1.3 million customers. The SRWTP is owned and operated by Regional San, a sanitation district organized under the laws of the State of California. The SRWTP currently uses a secondary treatment process consisting of bar screens, aerated grit removal, primary sedimentation tanks, carbonaceous oxidation tanks (CO tanks) using high purity oxygen, secondary sedimentation tanks, disinfection using gaseous chlorine, and dechlorination using sulfur dioxide gas. The treated effluent is discharged into the Sacramento River near the town of Freeport. The treatment process has a permitted capacity of 181 million gallons per day (mgd) average dry weather flow (ADWF).

The Central Valley Regional Water Quality Control Board adopted new waste discharge requirements for the SRWTP on December 9, 2010. These new discharge requirements are included in Order No. R5-2010-0114, National Pollutant Discharge Elimination System (NPDES) Permit No. CA0077682 (as amended by Order R5-2011-0083 in
December 2011 and State Water Resources Control Board Order WQ 2012-0013 in December 2012). While the new permit does not increase permitted treatment capacity, it incorporates stricter discharge requirements that the existing processes are not capable of meeting.

The facilities required to meet the new permit requirements are collectively called the EchoWater Project. Regional San created a Program Management Office (PMO) comprised of Regional San and program management consultant staff to plan, organize, and manage the EchoWater Project to comply with the new NPDES permit requirements.

IV. DESCRIPTION OF WORK

Services related to this RFP will include construction management/administration, construction inspection, offsite source and equipment testing, material testing, progress monitoring, documentation control, change order analysis and negotiations, schedule analysis support, contract enforcement, and other related activities. The selected firm will work under the oversight of the Program Management Office.

V. SCOPE OF SERVICES

4. **Schedule Review:** PMO schedulers will monitor the progress of the Contractor as it relates to his monthly published schedule and determining if the Contractor is meeting his said schedule. Contractor schedules will be required to be submitted in Primavera P6. The PMO will incorporate individual project schedules into the overall Program schedule. However, supplemental staff may be requested from the Consultant to assist the PMO Scheduler as a staff augmentation task during peak construction.

5. **Progress Payments:** This task includes the review of monthly progress payment requests, preparation of recommendation for payment, and/or identification of discrepancies for Regional San’s consideration.
